

May 11, 2026

To Whom It May Concern:

This letter is in response to your inquiry for an SDS for CONTEC® Part Number – PSMS0099.

The Hazard Communication Standard (HCS) (29 CFR 1910.1200 (g)) requires the provision of Safety Data Sheets (SDSs) for hazardous chemicals and/or products such as wipes that are saturated with hazardous chemicals. The SDS includes information such as the properties of the chemical, environmental health and safety hazards, protective measures, and recommendations for handling, storing, or transporting the chemical. For more information regarding SDSs, please visit the Occupational Safety and Health Administration's (OSHA) website:

<https://www.osha.gov/Publications/OSHA3514.html>

With regards to the product mentioned above, CONTEC® Part Number – PSMS0099 is saturated with 100% Deionized Water containing no hazardous chemicals and therefore is categorized as non-hazardous. As such, an SDS is not required for this product per the communication standards referenced above.

Additional product information such as technical data sheets or other relevant literature can be found on the Contec website. For products that contain other chemicals, an SDS can be found on the Contec Website under the Resources tab: <https://www.contecinc.com/sds-search/>.

We appreciate your interest and thank you for the opportunity to assist in your cleaning and contamination control product needs. If you require additional information concerning this notice, please contact your Contec Sales or Technical Representative.

Sincerely,

A handwritten signature in cursive script that reads "Michael E. Meadows".

Michael E. Meadows
